Sri Chaitanya Jr College
Board of Intermediate.

June 2018 - March 2020
Overall CGPA: 7.89

Vignan Steel City Public School
Secondary School Certificate.

April 2017 - March 2018
Overall CGPA: 7.42

PROJECTS

A Visionary Solution & Inclusive Learning

The aim of the project is to create a more accessible and inclusive educational ecosystem by leveraging advanced technologies to overcome learning barriers.

This project ensures equitable access to education for all individuals, regardless of their abilities or language preferences. It utilizes Optical Character Recognition (OCR) to digitize text, enabling visually impaired individuals to access printed content through audio or braille-compatible formats.

Neural Machine Translation (NMT) is employed to translate materials into multiple languages, breaking linguistic barriers and supporting diverse communities. Additionally, text summarization simplifies complex content, making it easier for learners with cognitive challenges to understand and engage with educational materials.

By integrating these technologies, the project empowers visually impaired individuals, diverse linguistic groups, and those with cognitive challenges, fostering an inclusive learning environment that adapts to the unique needs of all learners.

SKILLS

Developing

- HTML
- CSS
- Bootstrap
- Java Script
- React JS

Designing

Word Press
Adobe Photoshop
Adobe Illustrator
Figma

Soft Skills

Active Listening

CERTIFICATE

- Certified in UI/UX @ Tech Mahindra SMART Academy, Visakhapatnam
- Secured **ELITE+BRONZE Certificate** in “**Cloud Computing**” in NPTEL.
- Secured certificate in candela workshop conducted in our college.
